OBJECTIVE

Highly motivated First-Year BCA student at Shri Guru Ram Rai University with a focus on backend efficiency and interactive logic. Experienced in **Java programming** and **Unity 2D development**, with a proven ability to apply competitive discipline and AI-assisted problem solving to technical challenges.

EDUCATION

Bachelor of Computer Applications (BCA)

Shri Guru Ram Rai University (SGRRU), Dehradun

2025 – 2028 (Expected Graduation)

TECHNICAL SKILLS

- **Languages:** Java (Core Logic & Data Structures), C# (Unity Scripting).
- **Algorithms:** Binary Search, Divide & Conquer, Algorithm Efficiency ($O(\log n)$).
- **Game Development:** Unity 2D Engine, State Management, UI/UX Logic.
- **Tools:** Git/GitHub, VS Code, AI-Assisted Development (Prompt Engineering).

PROJECTS

Unity 2D Logic Prototype

- Developed a complete gameplay loop featuring velocity-based player movement and collision detection.
- Implemented **State-Based Logic** for Win/Lose conditions and a functional Scene Restart system.
- Integrated real-time data tracking including a **Score Counter** and **Countdown Timer**.

- *Workflow:* Utilized AI-assisted development to optimize C# scripting and refine game loop architecture.

Java Algorithm Performance Lab

- Implemented **Binary Search** logic to demonstrate high-speed data retrieval compared to linear methods.
 - Focused on mastering search space reduction and edge-case handling in sorted arrays.
-

ACHIEVEMENTS

CODM World Championship (Regional Phase)

- **Ranked Top 800 in Uttarakhand:** Competed in a high-stakes open tournament, demonstrating elite focus, strategic leadership, and rapid decision-making under pressure.

National Service Scheme (NSS)

- **State Level Camp Attendee:** Recognized for leadership and community impact through the SGRRU NSS unit.
