

NIKUNJ GARG

BCA Student | Java Backend Developer

Dehradun, Uttarakhand, India

Email: gargnikunj991@gmail.com

GitHub: <https://github.com/gargnikunj991-ux>

SUMMARY

First-year Bachelor of Computer Applications student at Shri Guru Ram Rai University with a strong interest in Java backend development and software engineering. Experienced in building object-oriented applications using Java, PostgreSQL, JDBC, SQL, and Git. Developed a complete Library Management System featuring user, member, and book management with database integration and borrow record tracking. Currently focused on strengthening backend development skills, data structures and algorithms, and learning Spring Boot.

EDUCATION

Bachelor of Computer Applications (BCA)

Shri Guru Ram Rai University, Dehradun

2025 – 2028

Relevant Areas of Study:

- Programming Fundamentals
- Object-Oriented Programming
- Data Structures
- Algorithms

- Database Management Systems
-

TECHNICAL SKILLS

Programming Languages

- Java

Database

- PostgreSQL
- SQL

Backend Development

- JDBC
- DAO Pattern
- CRUD Operations
- Database Design

Core Concepts

- Object-Oriented Programming
- Data Structures
- Algorithms
- Problem Solving

Tools

- Git
- GitHub

- VS Code
-

PROJECTS

Library Management System v2.0

Java | PostgreSQL | JDBC | DAO Pattern

- Developed a console-based Library Management System using Java and PostgreSQL.
 - Implemented User, Member, and Book Management modules with complete CRUD operations.
 - Designed and integrated a relational database using PostgreSQL.
 - Applied the DAO (Data Access Object) pattern to separate business logic from database operations.
 - Implemented authentication, login/logout functionality, password management, account updates, and account deletion.
 - Built book borrowing and return workflows with borrow record tracking.
 - Used JDBC PreparedStatement and ResultSet for secure database interaction.
 - Managed source control using Git and GitHub throughout development.
-

Student Management System

Java Console Application

- Developed a console-based application to manage student records using Java.
- Implemented CRUD operations including add, view, update, and delete for student data.
- Used ArrayList for efficient record management.
- Integrated file handling to persist student data between program executions.
- Organized code using multiple classes to maintain separation of logic and data.

ACHIEVEMENTS

CODM World Championship

Regional Phase Competitor

- Ranked among the Top 800 players in Uttarakhand during the open championship stage.

National Service Scheme (NSS)

- Selected participant for state-level training camp.
 - Participated in disaster response awareness training conducted with SDRF personnel.
-

LEADERSHIP

Technical Club – Tech Lead

- Assisted in organizing technical activities and student engagement initiatives.
 - Supported project discussions and technical learning activities within the club.
-

INTERESTS

- Java Backend Development
- Software Engineering
- Database Systems
- Data Structures and Algorithms
- Open Source and Technology
